

The next generation of Time & Attendance systems is here.

- ▶ Hardware & software developed by Gaming & Hospitality industry experts.
- ▶ Complete integration with Infinium Human Capital Management systems.
- ▶ Easier access to key information for improved decision making.
- ▶ More features with less complexity and fewer end-user steps.

Maximize your manpower. Optimize your information technologies.
Workforce Management just got a raise with
ON-TIME Time & Attendance™

 **Keyology**
the science of **software made simple**

ON-TIME Time & Attendance™

Integrated Architecture

- ▶ Integrates with IBM System i & Infinium Human Capital Management
- ▶ Integrates with Keyology's time clock
- ▶ Works with Productive Solutions AutoBadge ID System
- ▶ Removes database duplication between time clock and Infinium
- ▶ Seamless interactions between current back-of-house business processes, IT systems, management & end users

Intuitive Employee Features

- ▶ Clock in/out automatically translates into employee's language
- ▶ Auto-selection based on last transaction
- ▶ Warning prior to expired licenses
- ▶ Lock-out when licenses expire
- ▶ One-click position change
- ▶ Customized employee messaging

Turnkey Clock Functions

- ▶ On/Off property capability
- ▶ Auto-approve supervisor clock-in/out function
- ▶ Supervisor override & review capability
- ▶ Position authorization at clock
- ▶ Special events clocking
- ▶ Declared tips entry
- ▶ REG, OT, holiday, daylight savings, etc., rules integration
- ▶ Restrict functionality at clock
- ▶ Restrict employees at clock
- ▶ Off-line clocking functions
- ▶ Remote software updates to clocks
- ▶ Auto-ping clock for preventative failure

Management Tools

- ▶ Daily record review and editing
- ▶ Detailed reporting
- ▶ Mass approval capability
- ▶ Transaction history

Compliance Innovations

- ▶ Audit trail on each transaction
- ▶ Images of before and after editing stored
- ▶ Union rules integrated
- ▶ Payroll rules integrated

Innovative Time Clock

- ▶ Color touchscreen monitor replaces standard LED screen
- ▶ Windows XP GUI interface enhances ease-of-use
- ▶ Built-in mag-stripe, barcode reader with biometric option
- ▶ Wall-mounted unit w/ water & corrosion-resistant casing & screen
- ▶ Ethernet & wireless network connectivity
